

DEXMA:

Thank you for the opportunity to apply for the Junior Software Engineer role at your company. After reviewing your job description, it's clear that you're looking for a candidate that is extremely familiar with the responsibilities associated with the role and can perform them confidently. Given these requirements, I am certain I have the necessary skills to do the job adeptly and perform above expectations.

I am an efficient college student (BSc in Computer Science) currently attending Dedan Kimathi University. During the course of my academic career, I also managed to accrue nearly 2 years of work experience. In my free time, I worked for Nairobi City Council in a junior full-stack developer role, where I learned valuable professional skills such as web platform development and programming. In both my academic and professional life, I have been consistently praised as efficient by my professors and peers. Whether working on academic, extracurricular, or professional projects, I apply proven critical thinking, research, and leadership skills, which I hope to leverage into your company's Software Developer role.

After reviewing my resume, I hope you will agree that I am the type of competent and competitive candidate you are looking for. I look forward to elaborating on how my specific skills and abilities will benefit your organization. Please contact me at +254(703) 663-742 or via email at alexmeta517@gmail.com to arrange a convenient meeting time.

Thank you for your consideration, and I look forward to hearing from you soon.

Best Regards,

Alex Meta Ndung'u
